High Lift Transmission Jacks

HIGH LIFT TRANSMISSION JACKS

▶ For use in pits and underneath elevated vehicles.
▶ The lifting and lowering of the load using the foot pedals allow the heads to be free for other jobs.
▶ Easy maneuverable thanks to the swivel casters. The large base size provides high stability under load. With ergonomic handle.

- Safety overload valve.
- Hydraulic stroke limitation.
- Operation by the "dead man's" principle.
- LCS lowering system

Block of protective foam to protect and hold vehicle parts.
